

Special Issue

Urban Green Infrastructure and Ecosystem Services in Relation to Landscape Design, Planning and Management

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles and review papers) to provide insights about the green infrastructure and ecosystem services of built areas of cities, towns, and rural communities from the landscape planning, design, and management perspective. The topics might range among various scales (national, regional, local) of analysis and present the best practises in green infrastructure design and management, strategies, and policies concerning how to design GI in order to maximise synergies with complementary policies, research on ecosystem services that should be included in the GI, stakeholder engagement in green spaces resilient design and planning, and the design of green spaces in the context of climate change adaptation. Papers dealing with the innovative renewal of historic urban sites and environments are also welcomed. The call is open to all scholars whose work relates to the above topics.

Guest Editors

Dr. Aikaterini Gkoltsiou

Laboratory of Floriculture & Landscape Architecture, Department of Crop Science, School of Plant Sciences, Agricultural University of Athens, Iera Odos 75, 118 55 Athens, Greece

Dr. Albert Fekete

Institute of Landscape Architecture, Urban Planning and Garden Art, Hungarian University of Agriculture and Life Sciences (MATE), 1118 Budapest, Hungary

Deadline for manuscript submissions

closed (30 November 2025)

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
