

Special Issue

Global Bioenergy Potentials from Agriculture, Forestry and Other Land Use (AFOLU)

Message from the Guest Editor

Considering the current global challenges related to climate change and global warming, and the concurrent threats to energy prices, renewable energy sources represent interesting alternatives that may help to mitigate the environmental impacts and promote more balanced markets. This Special Issue aims to highlight new and additional knowledge on agriculture, forestry and other land uses for global bioenergy production. The production of biomass for bioenergy could be a fitting alternative in specific contexts. We welcome contributions on the following topics:

- Valorization of agricultural and forestry residues;
- Biomass production for bioenergy production;
- Land use and bioenergy;
- Land management and bioenergy;
- Bioenergy contributions to rural development;
- Bioenergy production and regional planning;
- Greenhouse gas emissions and bioenergy;
- Bioenergy in the digital transition contexts.

Guest Editor

Dr. Vítor João Pereira Domingues Martinho

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
