Feature Papers for Land Systems and Global Change Section

Message from the Guest Editors

The Special Issue: "Feature Papers for Land Systems and Global Change Section" welcomes contributions concerning the observation and modelling of land system changes. Innovative and transparent datasets and models are vital elements and tools to foster land science. We welcome reviews and outstanding articles to this Special Issue in order to improve the current knowledge on the datasets and models for land system and global change studies. Interdisciplinary manuscripts are particularly welcome.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
