

Special Issue

Reconsidering Urban Green Spaces: Biodiversity Functionality, Accessibility, and Wellbeing in Cities

Message from the Guest Editors

This Special Issue of *Land* aligns with the journal's focus on urban landscapes, land–water–energy–food interconnections, biodiversity and health, land modelling, data processing, multifunctionality, and sustainability. It aims to bring together original research and review papers on urban green spaces, emphasizing biodiversity functionality, accessibility, and human health in cities. Contributions may include conceptual analyses, literature reviews, or empirical studies, and are encouraged to adopt interdisciplinary approaches combining ecological measures, human perspectives, spatial planning, machine learning, and health indicators. We welcome submissions addressing topics such as:

- Functional urban biodiversity and spatial/landscape metrics
- Urban wilding, nature-based solutions, renaturing, and biophilic cities
- Links between human health, ecological conditions, and urban green spaces

We look forward to receiving your original research articles and reviews.

Guest Editors

Dr. Melissa Anne Beryl Vogt

Independent Researcher, Sydney, Australia

Dr. Alessio Russo

School of Architecture and Built Environment, Queensland University of Technology, Brisbane, QLD 4000, Australia

Deadline for manuscript submissions

30 November 2026

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
