

Special Issue

Landscape Perspectives on Urban Regeneration in Mediterranean Cities

Message from the Guest Editors

The main aim of this Special Issue is to deepen knowledge on the various frontlines of research on urban regeneration, but at the Mediterranean scale, therefore focusing mainly on case studies from Southern Europe and North Africa, filling in some gaps in the analysis of this topic in this specific geographical context. The studies and papers of this Special Issue are expected to address the following aims:

- Review the history and context of urban regeneration;
- Focus on managing urban regeneration;
- Consider land use issues with the occurrence of urban regeneration;
- Discuss monitoring and evaluation urban regeneration processes;
- The critical analysis of urban regeneration projects in the enhancement of social, economic, and environmental sustainability;
- The connection of urban regeneration with urban policies (social, economic, and cultural) and methodologies and instruments of regional and urban planning;
- The contribution of urban regeneration to the New Urban Agenda and the Sustainable Development Goals of the UN.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
