Climate Adaptation Planning in Urban Areas

Message from the Guest Editors

Climate adaptation is crucial for urban areas as it ensures the resilience and sustainability of cities in the face of increasing climate-related challenges. Submissions may cover a wide range of topics, including but not limited to: Urban Infrastructure Resilience: Studies on the planning, implementation, and evaluation of resilient infrastructure that can be adapted to climate-related disasters and events; Green and Blue Infrastructure: Studies on the role of natural and semi-natural systems in urban areas for climate adaptation, including urban forests, wetlands, green roofs, and sustainable drainage systems; Integration of Climate Adaptation Strategies to Urban Planning: A variety of approaches for integrating climate adaptation strategies into urban planning and development processes; Community-Based Adaptation: Research and case studies on community participation in planning that enhance social capital and urban resilience; Policy and Governance: Critical analysis of policy frameworks and governance structures that facilitate or hinder climate adaptation planning and implementation in urban areas.

Guest Editors

Dr. Jin-Oh Kim

Dr. Sangjun Kang

Prof. Dr. Juchul Jung

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
