

Special Issue

Strategic Planning for Urban Sustainability

Message from the Guest Editors

This Special Issue of *Land* seeks review papers and articles dealing with these challenges from economic, environmental, social, normative, technological, historic, and cultural perspectives. Quantitative, qualitative, and mixed-method studies will be considered. Scholars examining formal and informal urbanization processes, developments, and implications for cities, regions, and countries of the Global North and Global South are encouraged to submit their studies for peer-review assessment and publication. Keywords

- infill redevelopment
- urban and suburban retrofit
- novel approaches to land use planning
- new forms of eco-urbanism
- land use planning strategies, tools, and instruments
- coordinated land use and transportation planning interventions
- land markets and sustainable urbanism
- greenway planning and urbanization
- parks and urban growth
- infrastructure and commercial interventions
- science and business parks
- vacant land and community economic development
- green gentrification
- land value capture mechanisms

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany
