# **Special Issue**

# Land Management in Territorial Planning: Analysis, Appraisal, Strategies for Sustainability

# Message from the Guest Editors

The purpose of this Special Issue is to invite academics and researchers to submit proposals for papers that deal with the sustainable management of natural, agricultural, and urban land. Potential topics include, but are not limited to:

- evaluation methods and techniques to support choices in land planning;
- criteria and indicators for sustainability in land planning processes;
- strategies for enhancing the relationship between urban areas and agricultural and/or natural areas;
- innovative models for the environmental remediation of compromised areas;
- innovative tools for land planning and management;
- the protection, management, and safeguarding of natural areas;
- strategies for the transformation of degraded urban areas: and
- sustainable agriculture.

# Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.
