

Special Issue

Principles and Conflicts in Landscape Management for Biodiversity Conservation

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Land system science and social-ecological system research;
- Land use and land cover change;
- Land-related issues in ecology, environmental/geosciences, social, economic (sustainability) sciences and biodiversity research;
- Land-related aspects of nature and biodiversity governance;
- Land-related aspects of biodiversity and health;
- Land-related aspects of human-wildlife interactions, including synergies and conflicts;
- Land management, including the application of ecosystem services, multifunctionality or other concepts;
- Land-related aspects of achieving the UN Sustainability Goals;
- Landscape and territorial planning, conservation and management;

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
