

Special Issue

Adaptive Sustainable Forest Management to Actual Societal Challenges

Message from the Guest Editors

The international scientific conference ***“Forest Science for people and societal challenges – The 90th***

“Marin Drăcea” INCDS Anniversary” is an open event dedicated to the celebration of 90 years of forestry research activity of the “Marin Drăcea” National Institute for Research and Development in Forestry. The conference is of particular importance for the forest scientific community as it emphasises the contributions and socio-economic value of forests under the effects of climate change, air pollution and other societal challenges related to the growth of livelihoods as well as human health, well-being and quality of life.

This Special Issue is being released affiliated with this event, to give insights about the role of forest science in sustainable forest management and the improvement of the quality of human life, as well as insights into economic, social, cultural and environmental advantages based on sustainable forestry. We look forward to receiving your original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
