

## Special Issue

# Nature-based solutions (NBS) in Cities and Their Interaction with Urban Land, Ecosystems, Built Environment and People: Debating Societal Implications

### Message from the Guest Editors

We aim at answering questions such as:

- What type of GBI-based NBS are being implemented in cities across the Globe?
- Which properties of urban ecosystems do they make use of?
- How do NBS influence urban ecosystems and ecosystem services flows in cities?
- What are the trade-offs of NBS with other ecosystem services and urban biodiversity?
- What are the typical land units and types where NBS are implemented?
- How do NBS and their implementation affect issues of social cohesion and justice?
- How does NBS implementation differ from the prevailing land management and governance policies implemented so far?
- How does the implementation of NBS correspond/interact with general directions and priorities of urban development?

### Guest Editors

Prof. Dr. Dagmar Haase

Dr. Annegret Haase

Dr. Manuel Wolff

Dr. Diana Dushkova

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
