

## Special Issue

# Climate Adaptation, Urban Regeneration, and Regreening Processes: Challenges and Opportunities for Contemporary Cities

### Message from the Guest Editors

With increasing EU-level attention on climate resilience and urban regeneration, many local governments are adapting their planning regulations to align with these policies and this Special Issue seeks to explore how cities are integrating nature-based solutions, fostering citizen participation, and leveraging digital technologies to enhance spatial planning and climate adaptation strategies. This Special Issue will welcome manuscripts that link the following themes:

- Digital Technologies for a Sustainable Transformation of Cities;
- Urban Nature-Based Solutions;
- Climate Adaptation;
- Urban Regeneration;
- Spatial Planning;
- Urban Land Use Planning.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
