

Special Issue

Advancing Urban Digital Twins: Integrating Geospatial Data and Innovative Geospatial Methods for Smart Cities

Message from the Guest Editors

This Special Issue, titled "Advancing Urban Digital Twins: Integrating Geospatial Data and Innovative Geospatial methods for Smart Cities", is dedicated to delving into the latest advancements in urban digital twins with a specific focus on geospatial data integration and innovative geospatial methods for serving smart city development.

This Special Issue delves into the exploration of innovative approaches and methodologies that leverage advancements in geospatial science, technology, and geoinformatics to effectively address the challenges confronting the development of urban digital twins within the context of smart cities. We aim through this issue to build comprehensive learning and explore transformative perspectives to foster research and advance the field of smart cities. Development from the scientific community stakeholders and national projects is encouraged to build a common knowledge on how UDTs can foster the development of smart cities.

Guest Editors

Prof. Dr. Rafika Hajji

College of Geomatic Sciences and Surveying Engineering, Institute of Agronomy and Veterinary Medicine, Rabat 6202, Morocco

Prof. Dr. Roland Billen

Spheres Research Unit, Geospatial Data Science and City Information Modeling Lab (GeoScITY), University of Liège, 4000 Liège, Belgium

Deadline for manuscript submissions

13 October 2026

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
