

# Special Issue

## Urban Ecosystem Services IV

### Message from the Guest Editors

We are pleased to announce the Special Issue of Land on “Urban Ecosystem Services ☒”.

Urbanization, population growth, and climate change have negative impacts on ecosystem services (ES) in cities. Assessing and estimating the losses of ES due to rapid urban expansion plays a significant role in sustainable urban development. However, studies on the effects of urbanization on ES have shown inconsistent and sometimes contradictory results.

As a continuation of the last Special Issue on “Urban Ecosystem Services III”, this Special Issue will still seek to explore innovative approaches for enhancing urban sustainability and ES in the face of increasing urbanization concerns.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
