

Special Issue

Territorial Space and Transportation Coordinated Development

Message from the Guest Editors

Territorial space and transportation are closely related concepts, and the mechanisms governing their interactions and their coordinated development are important research directions of academic concern. Coordinating the relationship between development and protection, using the network effect of transportation to empower regional development, and at the same time enhancing how green the transportation field is, thereby enhancing regional sustainability, are key scientific issues that demand to be studied urgently. In order to promote research in the field of territorial space and the coordination transportation and to promote the deep integration of production, study, and research, we will launch a Special Issue of the journal *Land*, entitled "Territorial Space and Transportation Coordinated Development".

Guest Editors

Prof. Dr. Gaoru Zhu

Prof. Dr. Linchuan Yang

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
