

# Special Issue

## Sustainability and Peri-Urban Agriculture II

### Message from the Guest Editors

We are pleased to announce a second volume of this Special Issue focusing on the sustainability of peri-urban agriculture (PUA). In contemporary societies, PUA has become a very specific feature of multifunctional agriculture, which makes an important contribution not only to the sustainable development of peri-urban areas, but also to the reinforcement of urban–rural relationships. Key topics in this Special Issue include:

- New forms of agriculture in urban and peri-urban areas;
- Sustainable land use and access to land;
- Diversification and multifunctionality in PUA;
- Role of PUA in the urban–rural nexus;
- Land use policy and planning in peri-urban landscapes;
- Role of PUA in sustainable local food systems;
- Land use policy and planning in peri-urban landscapes;
- Conflicts and synergies between cities and agricultural areas;
- Peri-urban areas and social transformations;
- New entrepreneurship in PUA.

We look forward to receiving your original research articles and reviews.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
