New Insights in Integrated Land Management

Message from the Guest Editors

We are pleased to announce a Special Issue of *Land* on “New Insights in Integrated Land Management”. For this Special Issue, we are interested in contributions that link land management strategies with information-based decision making, good practices and different decision-making models at different levels. The focus of the papers may relate to—but are not limited to—the following themes:

- Modern approaches to land consolidation, e.g., multi-purpose land consolidation, including the re-allocation of parcels together with a broad range of other measures which contribute to rural development.
- Landscape aspects in land consolidation procedures: valuation of different economic, social and environmental aspects.
- Land consolidation in urban areas: urban restructuring and/or urban renewal evaluation models.
- Assessments and technical aspects of land and property valuation in land consolidation.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
