

## Special Issue

# Feature Papers for Land Innovations—Data and Machine Learning: 2nd Edition

### Message from the Guest Editor

This Special Issue “Feature Papers for Land Innovations –Data and Machine Learning II” welcomes contributions relating to spatial data science for obtaining, processing, analyzing, harnessing, and visualizing social, economic, environmental, and other data related to land. Particularly, it welcomes geospatial artificial intelligence and machine learning techniques for dealing with spatial big data, including remotely sensed data and social media data. Manuscripts can be theoretical, applied, or review articles. Interdisciplinary manuscripts are particularly welcome. Special Issue Keywords:

- spatial big data
- land use and land cover
- geospatial artificial intelligence
- machine learning
- deep learning
- big data processing
- big data analysis
- big data visualization

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.
