

Special Issue

Urban Transitions and Dynamics: Cultural, Ecological, Digital and Degrowth (Second Edition)

Message from the Guest Editors

The Special Issue will focus on a theoretical and empirical analysis of recent urban dynamics, transitions and its impact on citizens' health and wellbeing. We encourage contributions that develop integrative and evidence-based approaches to urban sustainability—particularly those that link ecological restoration, green-blue infrastructure, and digital governance tools—and evaluations of policy and planning instruments that can scale these solutions in different regions of the world. All themes addressing recent urban dynamics and experiences will be welcomed, namely those related to the following topics:

- Positive energy districts;
- The 15-minute city;
- Circular urban economies;
- Area-based initiatives for sustainable urban development;
- Degrowth actions;
- Cultural and digital projects for local development;
- Nature-positive smart cities;
- Nature-based solutions and urban biodiversity;

We look forward to receiving your original research articles and reviews.

Guest Editors

Dr. Pedro Chamusca

Dr. Patrícia Pereira

Dr. Alessio Russo

Dr. Thiago Mendes

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
