

Special Issue

Celebrating National Land Day of China

Message from the Guest Editors

China's National Land Day, observed annually on June 25, was established in 1991 to promote the conservation and rational use of land, reflecting China's commitment to addressing its land resource challenges. This Special Issue aims to highlight research and insights related to land resource protection and sustainable use, aligning with the goals of National Land Day. We invite high-quality articles and reviews on land resource management, protection, and sustainable use of land resources. Submissions may cover policies, technologies, or case studies related to National Land Day and its impact on land resource conservation. Article and review submissions are both welcome, with a particular interest in comprehensive reviews that can deepen understanding of land resource protection and utilization.

Guest Editors

Prof. Dr. Yurui Li

Prof. Dr. Fangzhou Xia

Prof. Dr. Hualin Xie

Deadline for manuscript submissions

30 December 2025

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany
