Soil Management for Sustainable Agriculture and Ecosystem Services

Message from the Guest Editors

We are pleased to invite you to contribute with your papers to the Special Issue “Soil Management for Sustainable Agriculture and Ecosystem Services” in *Land*. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Minimising soil erosion from agricultural land;
- Maintaining and improving soil productivity;
- Managing soil nutrients;
- Maintaining and improving soil organic matter;
- Optimising soil physical conditions for crop growth—bulk density, water infiltration, etc.;
- Water management and conservation;
- Understanding and optimising soil biological processes;
- Cover crops and rotations/diversity;
- No till/conservation tillage;
- Root–soil interactions;
- Pests and diseases management;
- Possible beneficial impacts of biochar on soil properties and crop growth.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.
