

Special Issue

Optimizing Brownfield Strategies in Urbanization Processes

Message from the Guest Editor

This Special Issue will welcome manuscripts that link the following themes (original research articles and review papers) :

- The real impact of brownfield regeneration strategies on their actual and successful renewal.
- The main limits, obstacles and problems of strategies in relation to their success.
- The key aspects of the success of implemented strategies and the formulation of recommendations for their implication in future strategies.
- Multi-perspective elements and emphasis on an interdisciplinary approach in successful strategies.
- Brownfield regeneration strategies with regard to the common features (types) of both brownfields and (or) their location in the built-up area (city centre, periphery).
- The needs of urban areas in the future and the determination of potential directions of brownfield regeneration.
- The role and forms of participation in the creation and implementation of strategies into reality.
- Mitigation of the emergence of brownfields in strategies.

We look forward to receiving your original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
