

## Special Issue

# Sustainable Land Management, Climate Change and Food Security

### Message from the Guest Editors

The Special Issue is linked to this journal's focus on land–climate interactions, biodiversity, and multifunctionality and sustainability. Contributions can be empirical case studies, modeling, and systematic reviews. We are also open to diverse methods (quantitative, qualitative, and mixed). The key thematic focus for submissions could include, but is not limited to, the following areas:

- Food security and nutrition;
- Agroecology;
- Sustainable land management;
- Climatesmart agriculture;
- Climate change adaptation and mitigation;
- Climate justice;
- Agricultural water security;
- Seed security;
- Remote sensing applications for sustainable agriculture;
- Precision agriculture;
- Community based adaptation research;
- Participatory scenario planning for sustainable land management;
- Gender dynamics in agricultural development;
- Smallholder agriculture;
- Agriculture's contribution to the Sustainable Development Goals;
- Agriculture, biodiversity and ecosystem services;
- Land degradation and mobility/migration;
- Just transitions.

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
