

Special Issue

Urban-Rural-Partnerships: Sustainable and Resilient

Message from the Guest Editors

The Special Issue aims at discussing new urban-rural imaginaries, integrating strategies and projects which explore present and future potentials in terms of sustainability and resilience. With these ambitions, we look to draw attention to the implementation of key topical targets including the UN Sustainable Development Goals, the UN Habitat Urban-Rural Linkages Guiding Principles, the New Leipzig Charter and the Territorial Agenda 2030. We encourage contributions which provide original knowledge as well as those aimed at closing the gap between available scientific knowledge on the one hand and decision-making in practice on the other. We offer a forum for exchange and unleashing synergies to reveal potentials for intensified urban-rural collaboration. This Special Issue will include key results of the international conference “Sustainable & Resilient Urban-Rural Partnerships” from 25 to 27 November 2020, a hybrid event which will take place both in Leipzig, Germany, and online at www.urp2020.eu. Notwithstanding, additional submissions with strong references to the topic are welcomed.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
