

Special Issue

Sustainable Ecosystem Services in Cultural Landscapes: Recent Trends and Future Challenges

Message from the Guest Editors

This Special Issue focuses on how ecosystem services produce important socioeconomic and ecological effects on cultural landscapes and their sustainability, emphasizing both current actions and future initiatives and proposals. We kindly invite you to participate in this interesting topic to achieve the objectives of sustainable territorial development in cultural landscapes. This Special Issue is expected to feature how cultural landscapes and sustainable ecosystem services are linked and how they can be treated both from scholar and planning scopes. We would also like to gather study cases that can help to identify what are the mainstream challenges and responses about the acknowledgment of sustainable ecosystem services provided by the cultural landscape. We look forward to receiving your original research articles and reviews. Prof. Dr. Carmen Delgado Viñas

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
