

Special Issue

Urban Land and Development Management in a Challenged Developing World: New Reflections

Message from the Guest Editors

This Special Issue aims to bring together a systematic collection of works across the developing world providing insights into new efforts being made or that can be made to improve urban land and development management in the developing world. This Special Issue invites both conceptual and empirical submissions that investigate new and emerging initiatives, programmes, projects, etc. that border on improvement in urban land development management in the developing world through both theoretical and practical lenses. The contributions may address but are not limited to the following research topics:

- Land tenure and governance;
- Land-based financing arrangements for urban infrastructure development;
- Land and real estate valuation systems;
- Housing and informal land developments;
- Urban heritage sites management; and
- Land and real estate leasehold planning and management.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
