

Special Issue

Sustainable Urbanscapes: The Role of Green Infrastructure on the Resilience of Ecosystem Services (Second Edition)

Message from the Guest Editors

For this Special Issue, we are interested in contributions that cover urban green infrastructure and ecosystem services through either empirical research or conceptual/theoretical work. Studies may examine any key processes, including but not limited to the following:

- Urban green infrastructures as solutions for urban disasters, including extreme events;
- Urban green infrastructure for urban resilience;
- Urban ecosystem service assessment at different scales;
- Urban green infrastructures for biodiversity conservation;
- Urban green infrastructures for regulating climate;
- Urban green infrastructures for public health;
- Social and economic benefits of urban green infrastructure;
- Urban green infrastructure and provisioning services.
