Perspectives on Mountain Conservation

Message from the Guest Editors

We welcome contributions from different areas of study and distinct focal emphasis to highlight the need for better mountain conservation, where legal, social, cultural, and financial frameworks help mountain environments secure their role of provision, regulation, support, and cultural ecosystem services and other benefits. We welcome diverse perspectives from both seasoned and young researchers, those of all gender and educational affiliations, and professional and academic tropes, allowing for the consilient montology of different longitudes, latitudes, and altitudes of the graticule of mountains. With these contributions, we seek to reinforce the membership of the Commission of Mountain Studies of the International Geographical Union that underwrites this effort.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
