

Special Issue

Land Use and Land Cover Change Impact on Soil Erosion

Message from the Guest Editors

This Special Issue welcomes original research articles and review papers that address, but are not limited to, the following themes:

- Land use and land cover–erosion linkages across spatial and temporal scales.
- Machine learning and artificial intelligence in soil erosion prediction.
- Climate change–land use and land cover interactions and future soil erosion scenarios.
- Geospatial workflows, soil erosion risk modelling and practical mitigation strategies.
- Decision-support tools for sustainable land and watershed management.
- Evidence-based solutions to soil erosion challenges in a changing landscape.

We look forward to receiving your original research articles and reviews.

Guest Editors

Dr. Kwanele Phinzi
Dr. Quoc Bao Pham
Dr. Sudhir K. Singh

Deadline for manuscript submissions

30 July 2026

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
