

Special Issue

Urban Infrastructure Development, Land-Related Policy and Socio-Economic Impacts in Emerging Economies

Message from the Guest Editors

The aim of this Special Issue is to provide a communication platform for sharing insights into urban infrastructure development, land use, spatial allocation and related policy, formulated in the process of urban development and governance in emerging economies, so as to help explore potential sustainable development paths globally:

- Relationship among urban infrastructure development, land-related policy and socio-economic impacts in emerging economies;
- Influence mechanism of environmental change, technological change, urban infrastructure development and land use on urban–rural migration in emerging economies;
- Coupling of industrial agglomeration, urban infrastructure development and urban land use in emerging economies;
- Relationship between real-estate related policy on urban infrastructure development and socioeconomic development in emerging economies;
- Assessment of socioeconomic, environment and health consequences of urban infrastructure development and land-related policy in emerging economies;
- Assessment of measures and policies for urban infrastructure development and urban sustainable development in emerging economies.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
