

Special Issue

The Anthropocene of Southeast Asian Deltas

Message from the Guest Editors

This Special Issue is dedicated to reporting the Anthropogenic footprints on SEA riverine ecosystems. The editors invite high-quality studies focusing on any human-induced environmental impacts concerned with SEA river deltas. Since Anthropocene reflects the human-nature nexus, colleagues from both natural and social science disciplines are encouraged to submit. We are particularly interested in those studies that can cut across multiple disciplines, such as human vs. physical geography, or eco-hydrology vs. anthropology. The topics of interest include but are not limited to: human and physical geography of the riverine systems, hydrological ecosystem services, payment for ecosystem services, or integrated water resources management. Studies conducting field-based physical and social surveys, geospatial analyses, or numerical modeling are all encouraged to submit.

Guest Editors

Dr. Ho Huu Loc

Dr. Edward Park

Dr. Dung Duc Tran

Dr. Doan Van Binh

Deadline for manuscript submissions

closed (29 September 2021)

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant Impact Factor, and has a goal to become the best journal in land in the coming years.

Editor-in-Chief

Prof. Dr. Christine Fürst
Department Sustainable Landscape Development, Institute for
Geosciences and Geography, University of Halle, Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), GEOBASE, PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
