

Special Issue

Geoparks as a Form of Tourism Space Management

Message from the Guest Editor

Geoparks can therefore be treated as functional areas—spatial structures consisting of functionally related areas with uniform development goals. This Special Issue welcomes papers focusing on topics including (but not limited to) the following:

- Development of geopark networks in individual countries;
- Assessment of the impact of geotourism on the use of landscapes;
- The role of spatial planning in geotourism;
- Good practices in geopark management;
- Problems of education in the field of geoheritage.

Guest Editor

Prof. Dr. Wojciech Zgłobicki

Institute of Earth and Environmental Sciences, Maria Curie Skłodowska University, 20-718 Lublin, Poland

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
