

## Special Issue

# Sustainable Grassland Management and Policies

### Message from the Guest Editors

This Special Issue focuses on research about balancing economic development and grassland ecosystem services from a wide range of perspectives (i.e., economic, management, social-political, ecological, geographical, remote sensing, etc.). Specifically, it covers understanding of current and future issues that threaten grassland ecosystem services, policies and management measures to improve grassland ecosystem services and/or to enhance herder income and economic development. We invite papers including, but not limited to: examining the status of grassland conditions and the threats to sustainable grassland use; evaluating the policies and management measures that balance grassland ecosystem services and economic development; and investigating the values of grassland ecosystem services.

### Guest Editors

Prof. Dr. Zhibiao Nan

Prof. Dr. Jikun Huang

Prof. Dr. John Rolfe

Prof. Dr. Lingling Hou

### Deadline for manuscript submissions

closed (1 April 2023)

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
