Landscape Urbanism and Green Infrastructure

Message from the Guest Editor

In this Special Issue, we invite papers focusing on, but are not limited to, the following topics:

- Regeneration of declining post-industrial cities
- Nature-Based Solutions and benefits of re-naturing cities
- Biophilic design
- Sustainable urban development
- Landscape ecological urbanism
- Climate change adaptation and mitigation
- Creating green space through low-budget and upcycling strategies for positive use of waste materials
- Placemaking: strengthening the connection between people and the places they share
- Participatory approaches in re-designing and transforming public spaces to increase health and well-being in cities
- Environmental justice: Innovative urban design and planning to reduce health-related environmental burdens, foster equitable access for all to public spaces and promote sustainable urban mobility patterns

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
