

Special Issue

Land Consolidation and Rural Revitalization

Message from the Guest Editors

We are pleased to invite you to submit your manuscript to the Special Issue: “Land consolidation and rural revitalization”. Land degradation and rural recession are the common phenomena in the process of rapid urbanization and great challenges to sustainable development. Land consolidation is the fundamental way to prevent land degradation and improve land efficiency, as well as an important measure to restructure rural space and revitalize rural economic and social development.

This Special Issue aims to set up a comprehensive framework to address key issues of land consolidation and rural revitalization during the rapidly urbanization, explore the effect of land consolidation on promoting agriculture production, improving eco-environment, and restructuring rural space, which will contribute to enrich the theories of land systems science and social-ecological systems research, as well as provide typical cases for rural sustainable development.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
