

Special Issue

The Past and the Present of Food Sustainability and Resilience of Local Food Production

Message from the Guest Editors

This Special Issue contributes to the topic/debate of the interlinkages between past and present food production systems with a special focus on how this impacts food sustainability and resilience of local food production. It also welcomes archaeological research reconstructing the history of agricultural and food practices in pre-historical and pre-colonial times and how variability, and possibly sustainability, have changed over time and influenced by post-colonial policies. Hence, our understanding of archaeobotanical assemblages and archaeology of food is enhanced through careful observations of modern processes which create such assemblages that we may find archaeologically.

Guest Editors

Dr. Désirée Gmür

Prof. Dr. Tobias Haller

Dr. Louis Champion

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
