

Special Issue

Feature Papers for Land Planning and Architecture Section

Message from the Guest Editors

Landscape is an important part of the quality of life for people everywhere. Taking into consideration that sustainable development is based on a harmonious relationship between social needs, economic activity, and the environment, the landscape constitutes a resource favourable to economic activity and whose protection, management, and planning can contribute to job creation. Acknowledging that the quality and diversity of landscapes constitute a common resource and a basic component of the natural and cultural heritage that contribute to human well-being, it is important to develop research towards its protection, management, and planning. In this Special Issue, we invite papers focusing on, but are not limited to, the following topics:

- Landscape protection
- Landscape management
- Landscape planning
- Landscape policy
- Landscape quality objective

Manuscripts can be of a conceptual-theoretical nature, demonstrations of successful cases, and of applied research. We also welcome short communications on design projects. Inter- and transdisciplinary manuscripts are highly welcome as are proposals for Special Issues in the field of Land Planning and Architecture.

Guest Editors

Prof. Dr. Thomas Panagopoulos

Prof. Dr. Eckart Lange

Dr. Jon Burley

Deadline for manuscript submissions

closed (31 July 2023)

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
