Dynamic Landscape Connectivity

Message from the Guest Editors

In this Special Issue, we invite papers focusing on, but not limited to, actionable approaches to understand, assess, and implement landscape connectivity in dynamic systems. Submissions may include:

- Case studies of dynamic connectivity analyses or implementation;
- Approaches to address specific challenges in dynamic systems;
- Overviews of best practices and lessons learned for researchers and practitioners;
- Explorations of the role of social networks and collaborative efforts in successful dynamic connectivity planning and implementation;
- Approaches for stakeholder engagement, plan delivery, decision-making strategies, and implementation actions.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
