

Special Issue

Feature Papers for Landscape Ecology Section

Message from the Guest Editors

This Special Issue aims to tackle complex problems related to landscape ecology from a broad perspective, and will address issues such as ecosystem services assessment, integrated catchment management, protected area monitoring and management, connectivity assessment, land use and land cover change, the relationship between landscape pattern analysis and ecological processes, spatial resilience to disturbances, changes in spatial structure, landscapes as socio-ecological systems, etc.

This Special Issue seeks contributions concerning the dynamics of patterns and processes at landscape scales related to any land use or land cover type, including aquatic and marine systems. Manuscripts can be original research articles covering theory and applications, or "state of the science" reviews, but should explicitly address scale. Interdisciplinary manuscripts are particularly welcome, as are manuscripts from fields adjacent to landscape ecology, such as geography, macroecology, agriculture and biological diversity.

Guest Editors

Prof. Dr. Javier Martínez-López

Prof. Dr. Alejandro Rescia

Prof. Dr. Robert Baldwin

Prof. Dr. Diane Pearson

Dr. Guillermo Martinez-Pastur

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
