

Special Issue

Peatland Ecosystem II

Message from the Guest Editors

The Special Issue is inviting researchers to present works focused on the theoretical background, methods, and outcomes of case studies for translating basic knowledge on peatland ecosystems into land use and ecosystem management solutions. In this Special Issue, we invite papers focusing on, but not limited to, the following topics:

- Peatlands ecosystem diversity;
- Indication and modelling of the key ecosystem functions;
- Water, carbon, and energy balance in peatlands ecosystems;
- Socio-economic aspects of peatlands use;
- Peatlands ecosystem functions and services;
- Evaluating and mapping land use impact on peatlands ecosystems;
- Peatlands in the environment and climate-related policies;
- Modelling/mapping land use spatiotemporal change;
- Monitoring and reporting on peatland-related activities.

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
