

Special Issue

Rural Land Use in China

Message from the Guest Editors

Rural land use in China is undergoing rapid transformation driven by the rapid development of science and technology. Carrying out comprehensive territorial improvement in rural areas has become an important measure to optimize the allocation pattern of rural land use, and has already produced a good demonstration effect. The purpose of the special issue is to focus on the main contradictions of rural land use in China and their solutions, try to build a cooperative network and sharing platform for rural land use research from a multidisciplinary perspective, and further deepen the theoretical innovation and practical application of rural land use research. In this Special Issue, original research articles and reviews are welcome. Suggested topics may include, but are not limited to, the following:

- Theory of rural land use;
- Rural land comprehensive consolidation;
- Rural land use and urban-rural development;
- Rural land ecology and high-quality development;
- Rural land use policy and reform;
- Cultivated land quality evolution and protection;
- Rural land market and land transfer;
- Rural land management innovation
- Non-grain and non-agricultural of cultivated land

About the Journal

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Nature and Landscape Conservation)
