

# Special Issue

## Celebrating 25 Years of World Wetlands Day

### Message from the Guest Editor

The purpose of this Special Issue is to celebrate 25 years of “World Wetlands Day”. There is no other ecosystem that has its very own Ramsar Convention or such a challenge impacting ecosystem sustainability. Papers are encouraged that provide an overview of wetland status and function within different regions of the world. Of special interest are papers that address wetland ecosystem and human health and wellbeing (MEA 2000), as well as key international wetland management challenges and actors (Smardon 2009). A “Universal Declaration of the Rights of Wetlands” has even been proposed (Davis et al. 2020); therefore, we need innovative solutions for wetland management and maintenance for this Special Issue. Topics of interest for this Special Issue include the following: World Wetlands Day; coastal and inland wetlands status; wetland functions and values; Ramsar Convention; wetland ecology; stress; restoration and change over time

### Guest Editor

Prof. Dr. Richard Smardon

Department of Environmental Studies, SUNY College of Environmental Science and Forestry, 1 Forestry Drive, Syracuse, NY 13210, USA

### Deadline for manuscript submissions

closed (30 April 2022)

## About the Journal

### Message from the Editor-in-Chief

*Land* is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.
