

Special Issue

Terminology in the Digital World

Message from the Guest Editors

This Special Issue is dedicated to the 2nd International Conference on "Multilingual digital terminology today. Design, representation formats and management systems" (MDTT 2023), held in Lisbon, Portugal, from 29 to 30 June 2023. This Special Issue aims to bring together specialists in the disciplines of terminology, terminography, specialized lexicography, applied linguistics, corpus linguistics, and theoretical linguistics to share methodological reflections on design approaches, representation formats, and management systems for the terminology collected using digital terminological resources. The aim is to study innovative approaches to evaluate from different perspectives the effectiveness of these systems, for example:

- Analysis of the information needs of the future user of the resource;
- Assessment of structural design approaches for terminological data collections;
- Study of terminological metadata and data representation formats;
- Methods of validating the ergonomics of a resource.

Guest Editors

Dr. Giorgio Maria Di Nunzio

Dr. Rute Costa

Dr. Federica Vezzani

About the Journal

Message from the Editorial Board

Languages (ISSN 2226-471X) is now in its eighth year since its inception in 2015. It is an Open Access journal which seeks to stimulate debates on key issues in languages and linguistics. We welcome papers at the cutting edge of different fields, ranging from applied linguistics to descriptive and theoretical linguistics. Submissions may consist of research articles and critical reviews as well as proposals for Special Issues where multi-disciplinary approaches and different perspectives on current issues are explored. We invite you to consider *Languages* as a forum for sharing your work.
