

Special Issue

Phonetics and Phonology of Ibero-Romance Languages

Message from the Guest Editor

We welcome studies on any Ibero-Romance language or languages, including comparative approaches, and particularly encourage submissions on lesser studied languages, varieties, or communities of speakers. Contributions may focus on any aspect of the sound system of these languages at the sub-segmental, segmental, syllabic, or prosodic levels. The Special Issue will cover a wide range of topics including, but not limited to, contributions to phonological theory based on new data; new theoretical approaches to long-standing phonological issues; laboratory approaches to phonology; issues at the phonetics–phonology interface; experimental phonetics including production and perception studies; phonetic modelling of production and perception patterns; sociophonetics; and innovative methodological approaches to recurring issues. The Special Issue will not only speak to researchers working on Ibero-Romance languages but will also reach a wider audience by highlighting how research on these languages contributes to general phonological and phonetic debates.

About the Journal

Message from the Editorial Board

Languages (ISSN 2226-471X) is now in its eighth year since its inception in 2015. It is an Open Access journal which seeks to stimulate debates on key issues in languages and linguistics. We welcome papers at the cutting edge of different fields, ranging from applied linguistics to descriptive and theoretical linguistics. Submissions may consist of research articles and critical reviews as well as proposals for Special Issues where multi-disciplinary approaches and different perspectives on current issues are explored. We invite you to consider *Languages* as a forum for sharing your work.

Editors-in-Chief

Prof. Dr. Jeanine Treffers-Daller

Department of English Language & Applied Linguistics, University of Reading, Reading RG6 6AH, UK

Prof. Dr. Anthony Pak-Hin Kong
