

Special Issue

Current Research on Chinese Morphology

Message from the Guest Editors

The aim of this Special Issue is to bring together cutting-edge research investigating Chinese morphology from diverse theoretical and empirical perspectives and shed light on the nature of the universal and language-specific properties of words and morphology in natural language, mental knowledge and psycholinguistic processes of word composition, formation, internal structure, morphological rules, and their development crosslinguistically. We request that, prior to submitting a manuscript, interested authors initially submit a proposed title and an abstract of 400–600 words summarizing their intended contribution. Please send the abstract to the (jchen@csufresno.edu) or to the *Languages* editorial office (languages@mdpi.com). Abstracts will be reviewed by the guest editors for the purposes of ensuring proper fit within the scope of the Special Issue. All papers will undergo peer review and will be published immediately upon acceptance.

About the Journal

Message from the Editorial Board

Languages (ISSN 2226-471X) is now in its eighth year since its inception in 2015. It is an Open Access journal which seeks to stimulate debates on key issues in languages and linguistics. We welcome papers at the cutting edge of different fields, ranging from applied linguistics to descriptive and theoretical linguistics. Submissions may consist of research articles and critical reviews as well as proposals for Special Issues where multi-disciplinary approaches and different perspectives on current issues are explored. We invite you to consider *Languages* as a forum for sharing your work.
