# Grammaticalization across Languages, Levels and Frameworks

### Message from the Guest Editors

We welcome a wide range of (relevant) topics, which may include but are not limited to:

Grammaticalization at different levels of linguistic analysis (morphosyntax, semantics, pragmatics and discourse-related phenomena);

Grammaticalization as observed in different kinds of corpora, including spoken data;

Grammaticalization across languages, including sign languages;

Experimental approaches to grammaticalization.

Relevant papers regarding all languages from different frameworks are welcome.

Interested authors are requested to submit a proposed title and an abstract of around 500 words summarizing their intended contribution, prior to preparing their manuscripts. Abstracts will be reviewed by the guest editors and the journal's editorial team, and then full manuscripts will be solicited. Please send the abstract to [Tom.Bossuyt@UGent.be](mailto:Tom.Bossuyt@UGent.be) and [languages@mdpi.com](mailto:languages@mdpi.com). Abstracts will be reviewed by the guest editors for the purposes of ensuring proper fit within the scope of the Special Issue. Full manuscripts will undergo double-blind peer-review.

Deadline for abstract submission: 15/10/2022
