Message from the Guest Editor

Dear Colleagues,

The emergence of new technologies of knowledge in all fields, their dissemination, and their application for social or economic benefit are essential activities for the progress of society worldwide. Its development has been essential for international economic and social convergence. However, the regulation and legal implications of these new technologies need to be addressed in the legal systems of every country. Therefore, in order to regulate the basic conditions that guarantee the equality and rights of individuals, legal systems should pay special attention to the legal challenges that new technologies can present. This includes, for example, blockchain technology in the future of contracts, big data, and the protection of personal data; the emergence of electric scooters as a new form of urban mobility; or even the fact that dependence on new technologies can affect one's personal life, where one seeks the right to disconnect digitally, and even the right to be forgotten.

Message from the Editor-in-Chief

Laws is an international, open access journal featuring rigorous scholarship on critical developments in governance, courts, agencies, and social order. Analysis and synthesis, theory and practice, and empirical and doctrinal work have appeared in the journal; contributions that bridge these traditional boundaries are particularly welcome. The social sciences and humanities generate insights both from and for the legal system. While theory grounds *Laws* in a timeless dialogue shaped by traditions of inquiry, legal practice ensures that scholars are addressing pressing problems. Both normative and positive scholarship can aid policymakers, judges, and agency officials. *Laws* brings together the work of theorists and practitioners, and a diverse range of empirical researchers, to promote the progress of foundational legal norms.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), RePEc, vLex Justis, CanLII, Law Journal Library, and other databases.

Journal Rank: JCR - Q1 (Law) / CiteScore - Q1 (Law)
