About the Journal

Message from the Editor-in-Chief

Laws is an international, open access journal featuring rigorous scholarship on critical developments in governance, courts, agencies, and social order. Analysis and synthesis, theory and practice, and empirical and doctrinal work have appeared in the journal; contributions that bridge these traditional boundaries are particularly welcome. The social sciences and humanities generate insights both from and for the legal system. While theory grounds *Laws* in a timeless dialogue shaped by traditions of inquiry, legal practice ensures that scholars are addressing pressing problems. Both normative and positive scholarship can aid policymakers, judges, and agency officials. *Laws* brings together the work of theorists and practitioners, and a diverse range of empirical researchers, to promote the progress of foundational legal norms.
