

Special Issue

Environmental Law

Message from the Guest Editor

The objective of this Special Edition is to discuss issues related to public policies directed to the environment. Studies and research involving comparative law and suggestions for countries to improve control or contribute to the mitigation of emissions and pollution are encouraged.

The aim is to contribute with scientific publications in Environmental Law to bring together the vanguard works that result in positive actions to improve the global environment for our and future generations.

- Environmental law
- Environmental policy
- Environmental constitutionalism
- Government and public policy towards the environment

About the Journal

Message from the Editor-in-Chief

Laws is an international, open access journal featuring rigorous scholarship on critical developments in governance, courts, agencies, and social order. Analysis and synthesis, theory and practice, and empirical and doctrinal work have appeared in the journal; contributions that bridge these traditional boundaries are particularly welcome. The social sciences and humanities generate insights both from and for the legal system. While theory grounds *Laws* in a timeless dialogue shaped by traditions of inquiry, legal practice ensures that scholars are addressing pressing problems. Both normative and positive scholarship can aid policymakers, judges, and agency officials. *Laws* brings together the work of theorists and practitioners, and a diverse range of empirical researchers, to promote the progress of foundational legal norms.

Editor-in-Chief

Prof. Dr. Patricia Easta
