Special Issue

Law, Financial Stability and Economy

Message from the Guest Editor

Although it occurred a decade ago, the last global financial crisis has raised awareness of the interrelationships between law, financial stability and economic development among academia, the financial sector, sovereign governments and international organizations around the globe. Thus far, a consensus has been reached worldwide that the financial market has a substantial influence on economic development, either positive or negative. Thus, for the financial market to enhance economic development, a series of institutions ought to be effectively devised to maintain its stability for major commercial as well as emerging and transitional jurisdictions. Based on the lessons learnt from previous financial crises, it is evident that law plays a crucial role among all infrastructural institutions for consolidating financial stability, which in turn means that law is also an essential factor to impel economic development for every commercial jurisdiction.

We cordially invite submissions to this Special Issue on the topic of "Law, Financial Stability and Economy", with doctrinal and/or interdisciplinary methodology.

About the Journal

Message from the Editor-in-Chief

Laws is an international, open access journal featuring rigorous scholarship on critical developments in governance, courts, agencies, and social order. Analysis and synthesis, theory and practice, and empirical and doctrinal work have appeared in the journal; contributions that bridge these traditional boundaries are particularly welcome. The social sciences and humanities generate insights both from and for the legal system. While theory grounds *Laws* in a timeless dialogue shaped by traditions of inquiry, legal practice ensures that scholars are addressing pressing problems. Both normative and positive scholarship can aid policymakers, judges, and agency officials. *Laws* brings together the work of theorists and practitioners, and a diverse range of empirical researchers, to promote the progress of foundational legal norms.
